PROFESSIONAL SUMMARY

Entry-level Web Developer with a solid foundation in front-end and back-end web development. Proficient in HTML5, CSS3, and JavaScript (ES6+) for creating responsive and interactive user interfaces. Familiar with Python-based backend development using Flask and Django frameworks. Eager to apply academic knowledge and personal project experience to contribute to a professional development team. Strong commitment to continuous learning and staying updated with modern web development practices. Excellent problem-solving skills with attention to detail and a collaborative mindset.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+)
Backend	Python, RESTful APIs, Flask, Django
Databases	MySQL, PostgreSQL, MongoDB, Firebase
Tools & DevOps	Git/GitHub, Docker, VS Code, Postman, npm/yarn, Webpack, Vite
Design Tools	Figma, Adobe (Photoshop, XD)
Additional	Responsive Design, SEO Basics, Agile/Scrum, UI/UX Principles
Soft Skills	Problem Solving, Team Collaboration, Communication, Attention to Detail

WORK EXPERIENCE

Web Development Trainee | Self-Learning & Personal Projects

2024 - Present

- Built multiple responsive web pages using HTML5, CSS3, and vanilla JavaScript following modern design principles.
- Developed simple web applications using Python with Flask framework, implementing basic CRUD operations.
- Practiced version control workflows with Git and GitHub, including branching and pull requests.
- Created UI/UX designs using Figma and Adobe tools, translating them into functional web pages.
- Participated in online coding communities and completed web development courses to enhance skills.

Data Analysis Projects | Freelance

2024

- Analyzed and visualized data using Python libraries, creating automated reports for small clients.
- Developed simple data collection tools and dashboards using web technologies.
- Collaborated with clients to understand requirements and deliver solutions within deadlines.

PERSONAL PROJECTS

Responsive Landing Page

Tech: HTML5, CSS3, JavaScript, Figma | github.com/mohammedashraf/landing-page

- Designed and developed a fully responsive landing page from a Figma mockup.
- Implemented smooth animations and interactive elements using vanilla JavaScript.

- Applied CSS Flexbox and Grid for modern layout techniques with mobile-first approach.
- Ensured cross-browser compatibility and accessibility best practices.

Task Manager Web Application

Tech: Python, Flask, HTML5, CSS3, SQLite | github.com/mohammedashraf/task-manager

- Built a simple task management application using Flask framework with user authentication.
- Implemented CRUD operations (Create, Read, Update, Delete) for task management.
- Designed a clean and intuitive user interface with responsive styling.
- Used SQLite database for data persistence and learned ORM concepts.

Personal Portfolio Website

Tech: HTML5, CSS3, JavaScript, Adobe XD | github.com/mohammedashraf/portfolio

- Created a personal portfolio website to showcase projects and skills.
- Designed the layout in Adobe XD before implementation.
- Implemented smooth scrolling navigation and interactive contact form.
- Applied responsive design principles ensuring optimal viewing on all devices.

Simple Blog Application

Tech: Python, Django, HTML5, CSS3, PostgreSQL | github.com/mohammedashraf/django-blog

- Developed a basic blog application using Django framework.
- Implemented user registration, login, and post management features.
- Connected PostgreSQL database for storing blog posts and user data.
- Applied Django templates and static files management best practices.

EDUCATION

Bachelor of Management Information Systems | Thebes Academy

Sep 2022 - Present | GPA: A+

Relevant Coursework: Database Systems, Web Development Fundamentals, Programming Basics, UI/UX Design, Software Engineering

CERTIFICATIONS & COURSES

- HTML and CSS in Depth (Meta, Coursera)
- Programming with JavaScript (Meta, Coursera)
- Python for Everybody Specialization (University of Michigan, Coursera)
- Responsive Web Design Certification (freeCodeCamp)
- Introduction to Git and GitHub (Google, Coursera)
- Django for Beginners (Udemy)
- Figma UI/UX Design Essentials (Udemy)

LANGUAGES

Arabic (Native) | English (B2 - Upper Intermediate) | Greek (A1) | Swedish (A1)

ACTIVITIES & COMMUNITY

- FreeCodeCamp Contributor - Completed 300+ coding challenges and earned certifications.
- GitHub Open Source Learner - Actively exploring open source projects and learning collaboration workflows.
- Tech Community Member - Regular participant in online web development forums and Discord communities.

- Design Practice - Creating UI designs in Figma for practice projects and sharing on social platforms.
